

**APRIL 24, 2017, PUBLIC WORKS/PROPERTY COMM. MEETING MINUTES**

4:30 p.m. Council Chamber. Members present: A. Hraban, M. Hraban, B. Morgan. Others present: A. Christianson, K. Gorsegrner, A. Kenyon, D. Parker.

**Call to Order:**

Chair A. Hraban called the meeting to order.

**Lake Ave. Access:**

Those present reviewed mapping indicating driveways WisDOT recommends be closed off for safety reasons when Lake Ave. is resurfaced in 2020. WisDOT has asked the City to consider these recommendations although it doesn't appear they are mandatory. On the one hand the City could invite all impacted property owners in to review and comment, but that is a foregone conclusion. Or, the City could simply review them and, perhaps, agree to a few and object to the remainder of the proposed closures. Or we could send out a survey whereon owners could indicate objection, indifference or concurrence with each proposed closure.

For the most part it appears as one would expect that WisDOT is trying to convert it to a limited access highway to reduce conflicts between local and through traffic. The City is naturally more likely to advocate for what its property owners prefer.

**Priorities:**

Those present reviewed a list of street projects that have previously been discussed, with the intent of prioritizing work in upcoming years.
