The board discussed library building maintenance issues. There is an extension on the bidding for the HVAC replacement/repair until June 7th. The door seals are broken, sometimes allowing worms to come into the building and trip the building alarms. Joint Management is working on the schedule to remove or fix the mold issues throughout the building. Also, the south side of the building will be getting repaired when the contractor can get the job back on their schedule.

The Director's report was presented by Christinna Swearingen. The library budget is on track! The adult and youth programs are very successful with good participation. The summer reading program starts on June 7th.

The meeting was adjourned at 5:23P.M.
